

January 9, 2019

Dear Parents/Students:

CBCA participates in the Maryland Association of Christian Schools Fine Arts competition. Our students perform at a high academic level and often win several academic testing categories. This year, MACS will expand their testing to include intermediate levels (4th – 6th) using the online format TestPoint™ Academic Testing Competition Program. *Your child may select to take as many tests as you choose.* The cost is **\$5 per test** and would be taken at our computer lab on a specified date during the school day. We encourage any and all students to participate in this state/national achievement test competition. First placement for the each grade division does receive a trophy.

*Please select which test(s) you wish your child to take and enclose the correct fee by **Friday, January 11th**.*

Sincerely,

Mrs. Henderson
